

DS Software Installation Location

Design Simulator(DS) System Error Details

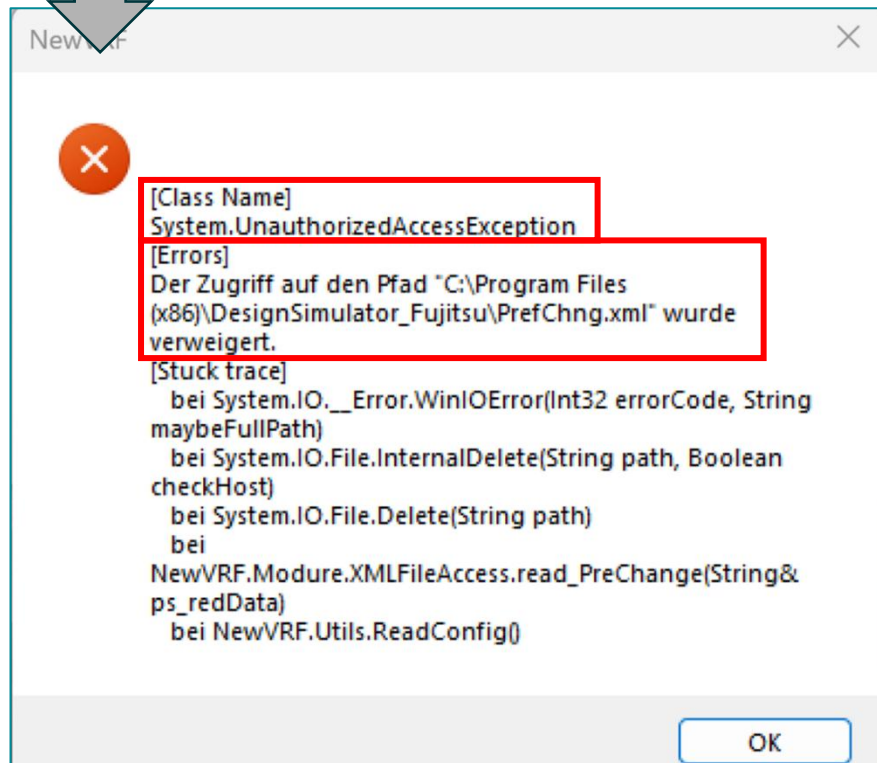

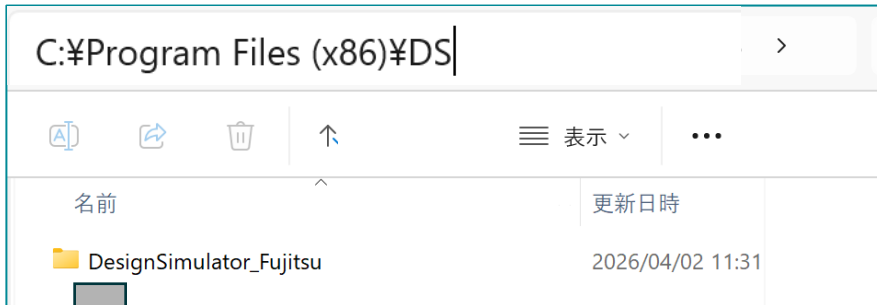

GENERAL Inc.

01 [Overview](#)

02 [DS Save and Startup Folder](#)

03 [Introduction to \[Design Simulator Info Site\]](#)

Placing DS in C Drive: Program Files (x86) causes a system error when starting.

When DS is saved in the following locations,

- C drive: Program Files (x86)
- OneDrive

Place DS in the user folder or on the desktop before starting it.

Recommended Location

- User folder
- Desktop

Saving the file in the following locations may cause errors.
If an error occurs, please move the file to one of the recommended locations.

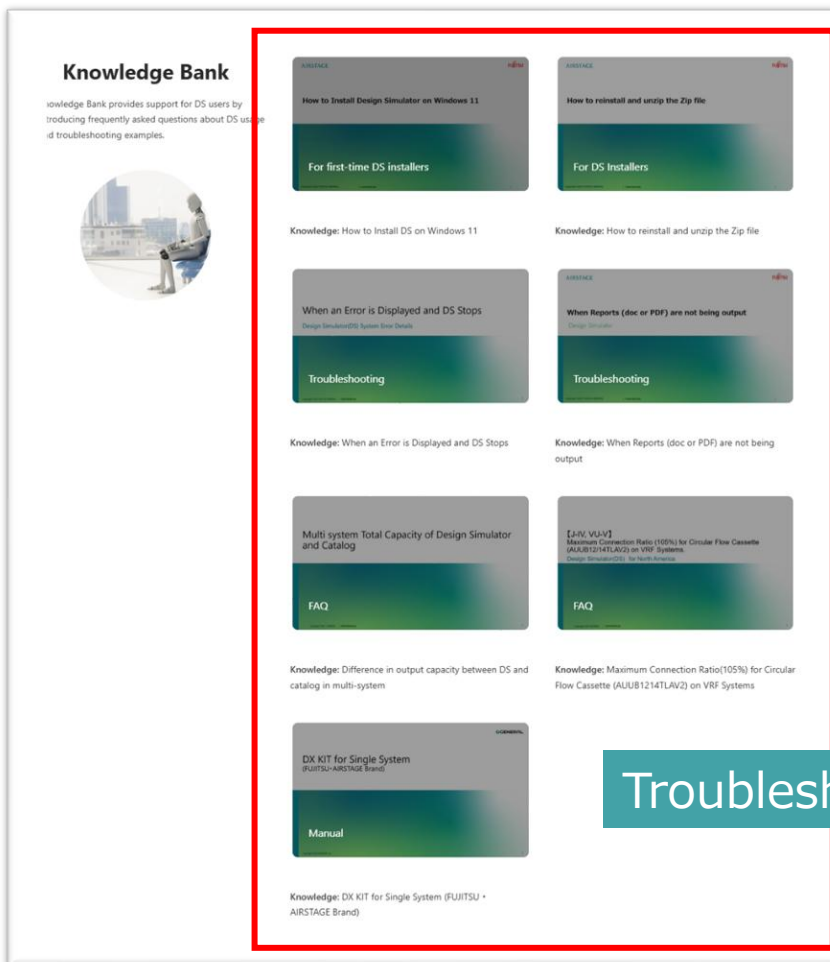

Locations that may cause errors

- Server (e.g., NAS server)
 - Cloud services (e.g., Teams)
 - Web browser
 - C drive: Program Files (x86)
 - OneDrive
- ※Please contact us if you have any questions.
